This class will explore graphic media and techniques through a range of projects, including spending at least two days working with a live model. The model will be clothed, draped, and naked, to explore ways of creating artwork from direct observation. The course will also help participants develop an understanding of anatomy and proportion while building confidence in figure drawing. This studio course is suitable for all levels, including those new to figure drawing, and there will be alternatives to drawing the nude figure should anyone prefer not to.
